The finished size of the sign.

SAFE AREA
Various margins
TOP: minimum of 50mm
SIDES: minimum of 50mm
BOTTOM: minimum of 150mm

Minimum 150mm margin at the bottom to allow for the banner fixings.

- ❑ Use CMYK colour profile
- ❑ If photos are used as part of the design, they need to be in high resolution, minimum 300dpi
- ❑ Leave a min 50mm margin top and sides, min 150mm on bottom
- ❑ Fonts should be embedded or preferably converted to curves
- ❑ Do not use PMS colours
- ❑ Use a breakdown of C20/M20/Y20/100K for rich black. Using just black (greyscale) results in a grainy print.
- ❑ Do not include colour profiles
- ❑ Do not include crop mark or registration marks
- ❑ No bleed required
- ❑ If background is white use a thin black border to show trim area
- ❑ Supply as a PDF file
- ❑ Supply at 100% size unless requested otherwise

PRINT READY files must be supplied to the above specifications. If the file does not meet the specifications a fee will be charged to make the file print ready.
